2. The following is an examiner's statement of reasons for allowance: The Applicant has amended independent claim 5 to include "a received beam generating section assigning weights to the received signals and assigning a beam weight of a fixed weight to generate a first received beam having a major lobe in a certain direction and a grating lobe in a direction 180 degrees opposite to the certain direction; and assigning weights to the received signals using the second received beam weight of a fixed weight to generate a second received beam which is orthogonal to the first received beam, and including a major lobe in a certain direction and a grating lobe in a direction 180 degrees opposite to the certain direction; and a demodulating section for receiving the first and second received beams from said received beam generating section, and for outputting demodulation data by performing maximal-ratio combining in response to the signal arriving timing information fed from said first and second signal arriving timing detecting sections".

3. Claims 7 and 8 depend on allowed independent claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
